

KATOLIK Sp. z o.o.
Poland, 48-130 Kietrz
ul. Mickiewicza 62
www.katolik.com.pl

COMPANY INFORMATION:

Katolik company has been founded in 1985 by Urszula and Henryk Katolik. The registered office of the company is in Kietrz (Opole Voivodship). Sales department, forwarding department and accounting department offices are located in Kietrz. There is also a cereal purchase department having at its own disposal modern warehouses. The company also has its own garage, where ongoing repairs are performed. Since 2009 the company has adopted the business name Katolik sp. z o. o. (earlier name P.U.H.P. Urszula i Henryk Katolik [production-commercial-service company]).

SCOPE OF ACTIVITIES:

The company is mainly involved in purchasing and trading of cereals as well as biomass. The company's main activities are the trade and the purchase of cereals. These above mentioned activities are being conducted from the beginning of the company and they still constitute the main segment of its business activities. Having not only a great experience in the field but also a network of regular customers both in Poland and Europe as well as having its own warehouses area enables the company to conduct its intensive trading activities and making plans for its further development. The newest spheres of the company's activities include sugar and bakery supplements distribution. The Katolik company is already cooperating with numerous customers and suppliers in Poland and abroad but its aim is to expand the range of the company goods in offer and to increase the number of sale. Another main business activity conducted by the Katolik Sp. z o.o. company is transport and forwarding. The company provides transport services in Poland and in the European Union. The services entrusted to Katolik company are carried out by modern and roadworthy trucks in reliable way and always on time. Our drivers have a huge experience and they hold all necessary licenses to provide national and international transport services which allow our company to execute every service efficiently and effectively. Our company can also provide freight forwarding and warehousing services if needed.

THE FLEET:

The company owns a modern fleet which include semi-trailers with the capacity of 24 ton:

- 15 Scania and Daf tractors
- 15 walking floor trailers
- 2 tipper semi-trailers

Walking floor trailers constitute a modern solution and they definitely improve the process of loading and unloading of goods. The use of walking floors trailers enables the company to use the fleet more effectively and shorten the time of transport service.
